

INDICATIVE SPECIFICATION

Name of Product	:	FORMIC ACID
CAS No.	:	64-18-6
UN No.	:	1776
Appearance	:	Colorless and Transparent Liquid
Total Acidity as HCOOH	:	85 % by mass min
Color (APHA No.)	:	10 Max
Sulphate as SO₄	:	0.005% max by weight
Chlorides as Cl	:	0.005% max by mass
Iron as Fe (as Fe ppm)	:	50 Max
Evaporation Residue	:	0.08% Max
Packaging and Supply	:	Available in 1.2Mts IBC Tanks All the packing is UN/IMDG approved.

Uses:-

Used as a coagulant for obtaining rubber from latex. As an auxiliary for delining and pickling of fur, fixing of dyes-in leather industry and in processing in textile industry. As an intermediate in manufacturing of basic drugs, plant protection agents, pesticides, vulcanization accelerators, antioxidants and cleaning agents. Used in preservation of silage and grams. Used in electroplating and as a solvent as well.
